

Flower Power Fairs held their first highly successful plant fair at Newburgh Priory in April and now holds two Yorkshire fairs in June. Both these fairs will be held in the grounds and gardens of these houses, both designed by John Carr! Advance tickets may be purchased for both events on their websites.

We will have an amazing collection of quality plants, some well known, others perhaps not, but always of the highest quality. Add in home made food, a garden to wander through, garden accessories and both dog friendly venues, all makes for a great day out!
